

CHETHAN SAI KAKUNURI

B.Tech Computer Science and Engineering – Data Science at Anurag University, Hyderabad

+919381678449 kakunurichethansai@gmail.com LinkedIn GitHub Portfolio Hyderabad, India

PROFESSIONAL SUMMARY

Computer Science (Data Science) student with hands-on experience building full-stack MERN applications and ML-powered tools. Shipped real-time collaborative systems, a paper trading platform with live market data, and a disease prediction model spanning 150+ conditions, comfortable across the stack, from React and Node.js to Python, XGBoost, and cloud analytics on BigQuery. Strong academic record (CGPA 8.91) with a consistent track record of shipping projects from idea to deployment.

WORK EXPERIENCES

MERN Stack Intern | Internship

Feb 2026 - Apr 2026

Suntek IT Solutions

On-site • Hyderabad, India

- Completed **MERN training** (JavaScript, Node.js, Express, full-stack development) in **20 training days** with a grade of A and **99.4%**.
- Built a full-stack blog application as the initial capstone, deployed end-to-end using Vercel (frontend), Render (backend), and MongoDB Atlas (database).
- Delivered an individual project (**MarketForge** — a MERN stock trading simulator with live market data) and a group project (**Kanvora** — a real-time Trello-clone with [Socket.IO](#) sync and role-based access), serving as Lead Developer.

Technologies / Skills Used : JavaScript, Node.js, Express, MongoDB, Vercel, Render, Tailwind CSS, React

Virtual Intern | Internship

May 2026 - Jun 2026

Google Cloud via EduSkills / AICTE

Remote • Remote

- Completed Google's Data Analytics learning path, covering **BigQuery**, **Looker Studio**, and cloud-based data pipeline fundamentals.
- Queried large datasets with **SQL** in **BigQuery** and built analytical dashboards in **Looker Studio** through hands-on labs.
- Independently authored a **60-page internship report** documenting **BigQuery workflows**, **Looker Studio dashboards**, and analytics outcomes.

Technologies / Skills Used : BigQuery, SQL, Looker Studio

PROJECTS

MarketForge — Paper Trading Simulator | Github Website

May 2026 - Jun 2026

Individual Project

- Built a full-stack paper trading platform tracking 30 stocks with real-time market data scraped from Yahoo Finance, letting users simulate trades and monitor live portfolio performance
- Implemented JWT cookie-based authentication with persistent sessions, alongside portfolio tracking and real-time P&L calculations across trades
- Designed a dark, premium dashboard UI using Tailwind CSS, Zustand for global state management, and react-hook-form for trade inputs

Technologies / Tools Used : React, Node.js, Express, MongoDB, Zustand, Yahoo Finance API, Tailwind CSS

AI Health Prediction Application | Github Website

Oct 2025 - Dec 2025

Lead Developer

- Trained a symptom-to-disease classification model covering 150+ diseases using XGBoost and Gradient Boosting, served via a FastAPI backend
- Built an OCR pipeline that automatically extracts prescribed medicines from uploaded prescription images, eliminating manual data entry
- Designed a medication reminder workflow that helps users track dosage schedules derived from OCR-extracted prescriptions

Technologies / Tools Used : Python, FastAPI, XGBoost, Gradient Boosting, OCR

Kanvora — Collaborative Project Board | Github Website

Apr 2026 - Jun 2026

Lead Developer · Team of 5

- Built a Trello-style project management app with real-time collaboration via [Socket.IO](#) — board changes sync instantly across all connected clients
- Implemented drag-and-drop card and column reordering with dnd-kit, including race-condition handling for concurrent edits
- Role-based access control (USER / AUTHOR / ADMIN) with JWT authentication, protected routes, and a settings panel for board management

Technologies / Tools Used : React, Node.js, Express, MongoDB, Socket.IO, react-beautiful-dnd

SKILLS

Databases :	MongoDB, MySQL, BigQuery, Supabase
Frameworks & Libraries :	React, Node.js, Express, FastAPI, Zustand, react-beautiful-dnd, Tailwind CSS
Programming Languages :	JavaScript, Python, C, C++, Java, SQL, C#
Tools & Platforms :	Git, Postman, Excel, Godot, GitHub, GitHub Actions, Linux, GitLab, Docker

EDUCATIONS

Anurag University | Hyderabad

2024 - 2028

B.Tech CSE (Data Science)

CGPA : 8.91

Sri Chaitanya Jr Kalasala | Hyderabad

2024

Intermediate (12th)

CGPA : 93.3%

Sri Chaitanya Techno School | Hyderabad

2022

Secondary School (10th)

CGPA : 9.7
